Notes

Never insert fingers into the guard when the fan is running.

Please keep a certain distance between the children and the fan.

Do not use the fan near water or fire otherwise it may cause electrical hazard.

Don't use the fan too near window because the curtain may be sucked into the fan which will lead to electrical hazard

Don't make the fan blowing straightly toward the acid, oil and other chemical substances.

Be sure the fan is on a stable surface when operating to avoid overturning Before using the fan.

Please check whether the voltage used is in line with the voltage on the label of the fan or not.

Turn off the power before pulling the plug out.
